**TAEKWONDO**      **Patrick Thimangu**      **\$35 Outfit + session fee**      **2<sup>nd</sup> – 5<sup>th</sup> grades**

*Taekwondo, which means the way of the hand and foot, is a dynamic Korean martial art and Olympic sport that applies kicks, punches, blocks, footwork and evasive movements for self-defense. The martial art, which can be practiced by children and adults, helps develop physical and mental fitness within a formal setting in which the teaching of courtesy, integrity, perseverance, self-control and indomitable spirit are emphasized. The learning progress of a Taekwondo practitioner is marked by a belt rank that begins with a white belt and progresses to blackbelts of varying degrees. Taekwondo is best practiced in a group setting. Nearly all aspects of this martial art involve continuous and robust aerobic activity aimed at teaching physical defense, offensive movement and mental acuity in relation to human surroundings. Mr. Thimangu is the principal and master instructor who is a 5th Degree Kukkiwon certified blackbelt with more than 30 years of experience in Taekwondo. Session 2 & Session 3 details will be available in November.*

*Mondays & Wednesdays 3:40 – 5:00pm*      It is HIGHLY recommended that you sign your child up for **both** Monday and Wednesday sessions.

**Let's Build It! Engineering****Learning Means Fun****1st - 5<sup>th</sup> grades**

*This class takes a hands-on approach to engineering, allowing students to directly engage with basic engineering concepts through a variety of fun and educational activities. Students will improve their problem solving, math, and physical skills—all while engaging in exciting building projects. Let's build it – Chain reaction in action! The ball rolls down the ramp, turns the switch, that moves the post, that activates the zip line, that knocks the ball down the ramp and into the goal! In this STEAM program, students will be building Rube Goldberg "Mouse Trap" chain reaction machines featuring levers, pulleys and other simple machines. Engineering and physics concepts will be introduced and reinforced through creative play.*
